Collision Team

Check Off List

Place This In Your Glove Compartment!

Pre-Accident:

- In your car have your Driver's License, Vehicle Registration, Insurance Card
- Make sure you have the proper insurance coverage for you and your vehicle. Comprehensive/Liability
- Have a Safety Kit in your Car: Jumper Cables, Flashlight, Warning Cones/Lights, Tire Repair Kit/Jack

Post Accident Scene:

- **BE SAFE/STAY CALM!** Turn on your flashers and if your car is drivable, get car off to side of the road and stay out of the way of traffic
- Call 911 to contact Police/DPS to notify appropriate authorities
- Document the accident scene using your cell phone camera. Get witness statements and exchange insurance information with other driver(s) Let the authorities exchange info between drivers if the scene is contentious.
- If your car needs to be towed, avoid unnecessary time and expense,, Direct the tow company to tow it to **YOUR** preferred location whether that's to your home, your preferred repair shop or your preferred collision team. **By Arizona Law, YOU have the right to have your car repaired by YOUR preferred collision partner.**
- Inform your Insurance company as to where you are performing your repair. Again, this is **YOUR** right to choose, **NOT** the insurance company's choice!

Pre-Screen Your Potential Collision Partners in advance:

- How long have they been in business. Will they be around for lifetime warranties etc.
- Check their credentials and their reviews both on their websites and third party testimonials. Ask your trusted repair facility for referral or ask your friends. Look for independently owned/operated facilities.

- Bumper to Bumper Radio has the very best options in the industry listed below:
